

# MSFC Radiation Safety Program

Your Hosts/Presenters for This  
Meeting are:

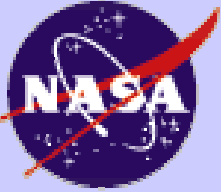

MSFC Management Personnel  
Who Want to Assure you  
Receive the Message that Safety  
in the Workplace is No. 1  
Safety is an MSFC Priority

# MSFC Radiation Safety Program

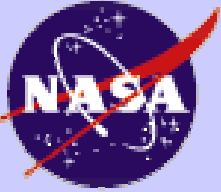

## Why we are Meeting

- Recent Events in the MSFC Radiation Safety Program
  - Termination of Jim Bult, MSFC RSO
  - Internal/external Program Audits
  - Allegations of “fear of reprisal” to Employees who report Safety Concerns
  - Hiring of new RSO, Patrick Patterson

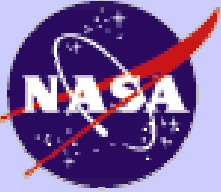

# MSFC's Responsibilities

- To provide you with a safe and healthful workplace
- Encourage open communications regarding safety
  - Providing avenues for reporting safety concerns
- To ensure the availability of appropriate personal protective equipment and expertise for you to call upon

# Your Responsibilities

- Reporting all unsafe conditions/acts
- Performing tasks in a safe manner
- Following appropriate operating and safety procedures
- Maintaining a safe work area
- Wearing appropriate personal protective equipment
- Recommending improvements to enhance the safety of the operation
- All Employees have Stop Work Authority

# Avenues of Reporting

- Supervisor/Team Lead/Building Manager/RSO/Radiation Safety Committee
- Calling 4-HELP (4357)
